" 572, " 27 (from top).	For "1872," read "1871."

PREFACE.

THE present Volume is an Index to the "Catalogue of the Statistical Society," published in June, 1884, in which the subject-matter of each work comprised in that volume is alphabetically arranged and to a certain extent classed.

The two volumes record all Books in the Library at the close of the year 1883.

The Preface to the Catalogue explains the system upon which that work was prepared.

The present Volume furnishes the heads and sub-heads of each subject printed in Egyptian or Roman characters respectively, and the names of Authors, as well as the titles of the Works, as given in the Catalogue, in italics. When both are stated, the latter are generally inserted within brackets. In the majority of cases the year or years to which the work refers are inserted, instead of the date of publication, as furnishing a more useful guide to the inquirer. The Titles of Books have been given in their original language, the subject-matter always in English.

The information relating to each Country and Town is given both under those heads, and under the heads of the several subjects.

The repetition of the several heads is avoided by the use of the sign —, and the repetition of sub-heads, and of names of authors and publications, by the use of the letters *id.*

9, ADELPHI TERRACE, STRAND, W.C.

31st May, 1886.
